Christadoro's Hair Dye still Triumphant! Christadoro's Hair Dye still Triumphant!

CONTRAST the tints brought out to the base by Christadoro's matchiess revisitating Hair Dye, and those produced by application of the burning fluids ordinarily sold as Hair Dyes, you see at once that the color is natural in one case, unnatural in the other, and the starple reason is that Christadoro's is the outer preparation which by its exact chemical combination operates on natural and immutable principles. Made, soid and applied (in 10 private rooms) at Christadoro's, 6 Axior House, Broadway, N. Y. Also for sale by the principal Druggists and Perfamers throughout the country.

Come to the Paluce, oh come there with me,
Where Fashion, 'mid, spinodor, still holds her levee
And smilingly tells you that Beauty is sold,
To youth, of to age, in exchange for their gold;
And their Lady-like charms through life may protone,
Incy've showls for the taste, and shawle for the storm.
They've charks which tell for a song.
They've showls for the taste, and shawle for the storm.
They've charks which tell of the thorn and armself.
They've same and the total storm and brusself.
They've same and the total storm and brusself.
They've same has the total storm and sad,
They've same has the same has been bus to see.

For those who pay tribute, or came hut to see.

For those who line we were and sad that is in it.

C. H. G.

Nor I bush, indeed I do, what modest married man would not? Yet I cornale myself with the idea that beauty always pays tribute to worth and merit. Thanking sincereity yet humbly my fair contributor, I trust that by honsity, myrightness and my gentlemanly bearing, I may ever command her respect.

with despatch and regularity. The line penetrates the most populous and productive portion of Wisconsin; capacious Grain Watchouses are already received at the principal stations by private multivilicals, affording every convenience for the purchase and shipmens of all kinds of Produce and Provisions, which, together with the slighted Depots of the Company on the line, and superior storage, and shipping facilities at the Lake, renders this a desirable line of country for Produce and Lumber operations.

NEWS OF THE MOUNING. The Supreme Court of our State has at length rendered judgment in the contested Governorship, and in virtue of their decree, carrying out the will of the People. Colum Basesond, the Republican Candidate, will this day assume the duties and responsibilities of the Executive Office. No serious opposition is anticipated anywhere.

In the Assembly vesterday, Mr. STARK, of this city, introduced a joint resolution for a recess of the Legislature till June, in order to give the Investigating Committee time to complete their labors. The resolution will probably pass.

Coles Bashford Governor of Wisconsin! THE THIUMPH OF BIGHT!

We congratulate the People of Wisconsin upon the judgment yesterday rendered by the Supreme Judicial Tribunal of this State, ousting WM. A. BARSTOW from the Executive Office which he had usurped and declaring Cours Basurond the legally elected Governor. So ends a long-protracted exciting and important contest, and it ends in the triumph of the Right, the vindication of the Eal lot-box and the enforcement of the Popular Will. That the decree thus pronounced will be promptly and unhesitatingly respected and obeyed, and Cours Bashrono cheerfully recognized as the rightful Governor of Wisconsin, by the great nines of our fellow-citizens of all political parties, we look for like ready obedience and recognition from both branches of our Legislature, from our State officers and from all other persons in authority under the laws and within the limits of

between the paddle-boxes with a filend, looking forward, when I heard the captain quietly say to the officer of the deck, "All lands, Sir, shorten sail." At the same moment he stepped backward and touched the engineer's alarm bell.

The lookeuts had said nothing; the wind had The lookouts had said nothing; the wind had not increased; the fog had not thickened. "What can this be for?" said I, looking to wind ward. The watch on the fleck were clewing up, men standing by sheets and halyards, and the boutswain was piping up the sleepers, when I cast my eye forward on the turbid water. "See there is a bit of fee;" it was not larger than a tumbler: it's the first I have seen; and there is another—oh! that is it what the capanin saw; he is afraid we are approaching a body of it. There it is!"

" Hard a-port!" shouted the captain in a voice to be remembered. "Hard a-port!" was repeated aft; the engineer's bell sounded, Stop-turn back;" the sais swung aback or flapped idly; but in a moment the Arabia was rushing, yet at full speed, into the close white field of ice; in another moment clear water was beyond our

vision on any side.

The captain rang "stop," and the engine rested as the ice struck the paddles. After the ship had lost headway, they were again turned forward slowly, while the crow furled the sails. Slowly we put ted the surging surface of ice, which was so broken that the pieces averaged in size not larger than a bucket; slowly moved on, heading south-west, until at length we ran out into clear water again. About fifteen minutes afterward, the look-outs forward shouted "More ice!" The helen was not down to bring the wind against rision on any side. The helm was put down to bring the wind against us; paddles stopped and backed, as before; but again, though we were then moving much more again, though we were then moving much more slowly, we had presently run some ship's length's, I judged, into the "field." Again the ship's course was made south-west, and the engines's bell was rung to turn forward slowly. I walked to the stern and leaned over the counter to see if the paddles were at all injured. While I was in this position I heard an exclamation, and, raising my head, beheld the most frightful object that in more than fifty thousand miles of sea-sailing I ever encountered—right abreast of un, and not a hundred yards distant, yet spectral in the fig, a dead ghastly and unblemished white in bury, just about as large above nater as the City Hall to New York.

We passed it quickly and silently; many of those on deck, even, did not see it. A DENOCRATIC OPINION.—The Green Bay Adocate, the leading Democratic organ of Northern Wisconsin,in discussing the extraordinary course of the late Usurping Governor, thus speaks of his desperate attempt to defy the Supreme Court and to compel the party to sustain him in his trea

counsel from the Court, the defying of its judge-ment, whatever it might be, and the calling upon the Legislature officially and upon the Democratic party, unofficially to sustain him in this course. We sat down before this paper with the infinition of writing a staid and cool discussion of Gov. Bar-stow's doings; but when it comes to this, we ask where is the man, with a tolerable sense of self-respect, who can go on and treat it as a real ques-tion which demands attention and will bear arguwrow took this stand, nobody would beleive it would ever have been done, or, being done, would have found a supporter. But we have learned that nothing is too preposterous to find supportera. King Strang, who acts strange antics on the Beaver Islands, finds reasonable worshippers; and Rhoda Wakeman, whose terrible history we have just shuddered over, has eager followers. With these instances in view, Barstrow's fantastics are no longer surprising, especially as he has a newspaper under his thumb, enunciating his funny decrees from day to day. King Lear and inny decrees from day to day. King Lear and

The flames had burst through the roof, throwing high up into the air columns of fire, which threw out into bright reflection every towar and spire within the circuit of the metronolis, illuminating St. Paul's as if gilded with burnished gold, and throwing a flood of light across Waterloo Bridge, which set out in bold relief the dark out-line of the Surrey hills in the distance.

This glare was a speedy messenger in fetching up the engines, which now arrived from every quarter of London at a tening gallop. There quarter of London at a tearing gason, was no want of water, but at the moment nothing would have saved the property. The theating will have saved the property. The theating will have saved the property. The theating will aking within its four hollow walls, was like a well of fire, or rather glass furnace. An intense heat such as this soon burnt up every tinger on the walls, and at 52 o'clock the ro'f fell in with a tremendous crash. Southern Emigration to Kansas. Correspondence of the N. Y Tribunc.

Nashville, Tenn., Tuesday, March 11.

The all absorbing topic of the day is Kansas Now as the newspapers are filled with what the Abolitionists are doing; suppose we have a little of the other side. During the past mouth, there Abolitionists are doing, suppose we have a little of the other side. During the past month, there has been a man by the name of White lecturing in different towns in the South about Kansas, life is a fine-looking man, but rather a bragado cio, and the people generally don't believe all he save arising discussion.

Mr. Hickman, of Penn., closed the debate in a speech of commanding power, full of the spirit of light and liberty. In clearness of statement and fedicity of language, it has not been surpassed the could pray if he was to try, and that supposed he could pray if he was to try, and that if he had only one prayer to offer, and his choice was either to pray that his soul might be saved from a free State, he would choose the latter. The man was married to a handsome widow in Calhoun, Geo. He is bound to raise up voters to make Kansas a pro-Slavery State. Now, the newspapers make a great hurrait about the North's getting up enity to endestine Mr. Orr's substitute proposition, but to substitute Mr. Dunka there, for: finally passed this substituted proposition by one handred and one to ninety-time.

Mr. Hickman in his speech, and Israel Washburn atterward, had asked the friends of Kansas; the substitute young South Carolina, Georgia and Tennessee. Those companies of men are all of of them armed to the teeth, with Start providing from the south about the North's getting up enity to mean the proposition, but to mistrate was a substituted proposition by one handred and one to ninety-time.

Mr. Hickman in his speech, and Israel Washburn atterward, had asked the friends of Kansas; and they are forming companies all through South Carolina, Georgia and Tennessee. These companies of men are all of of them armed to the teeth, with Start in the people of all their associates in the negotian sociates and all their associates in the negotian of the teeth, with Start in the people of the North may not be aware that the proposition, but to mistarting the proposition and themselves and all their associates in the negotian of from Charleston, S. C., came to this point fret of all charge. Each man is provided with a cer tificate, of which the following is a true copy: "CERTIFICATE.

"We hereby cratter, that Mr. ——, the heaver of this, is a true Southern man in rentiment, and engigner to Kanasa with a born like purpose of becoming an in labilitant thereof, and of aiding the constituted authorities in maintaining the Government and Laws now in force in said Fernary, or such other laws as may be passed if in the proservation of Siave Institutions, and we can mastly commend kim to the hind offices and friendly services of all whe are in favor of maintaining the rights of the South.

FREEDOM FOR KANSAS.

MEETING TO-DAY!

The citizens of Milwaukee County opposed to in Kansas, are invited to meet at Young's Hall this day, at half-past 1 o'clock, to organize a County Kansas Aid Association, auxiliary to the State Association. The call for this meeting has been largely signed in the County towns and by many persons in the City. The object is to carry out the plan of organization suggested in the On Thursday Evening, March 27th, Address of the Board of Trustees of the State Association. The issue of " Freedom in Kansas" is a vita-

one. The great battle between Freedom and Elavery is to be fought in that Territory. Upon he result of the struggle it depends whether Slavery is to be raised to the dignity of a National Institution, or kept down to its level of a local sore. Kansas prays for help in this hour of her trial. The South will spare neither men, nor means to set up and maintain Slavery there. Already Missouri, Kentucky, Tennessee, South-Carolina &c., are dispatching armed missionaries to preach the beauties of the "peculiar institution." Let not the North be wanting in its duty at this crisis. And let Wisconsin do her part to preserve Kansas from the evil and degrada tion of Slavery, and keep it sacred to Freedom.

STRANSOLTS COMING !- The low pressure Steamer Huron, Capt. Goodnich, is advertised to leave Chicago for this port, Sheboygan, Manitowoo, &c, at 8 o'clock to-morrow (Wednesday) leave Chicago for this port, Sheboygan, Mauitowee, &c, at 8 o'clock to-morrow (Wednesday) morning. The steamer Cleveland will be placed on the route in a few days.

Police Court, March 24.

Timethy Caunty, for being drunk and disorder'y, and resisting officer, was fined \$10 and costs. Anthony Williams, for being drunk, disorderly and "stairing the glaze," breaking windows, was fined \$15 and costs. Patrick Doyle, disorderly and fighting, fixed \$10. Catharine Schoolert, charged with stealing a gold pen in the Niagara House, from one of the boarders, was dis-

charged for want of prosecution.

A warrant was issued against Matthew Dwyer, for an assault and battery upon John O'Brien on the 23d of March, the defendant gave ball for his appearance this rains at 2 o'clock, and was discharged from custody. Our CHARTER ELECTION.—We have heard of no move-ment as yet for a caucus for the nomination of Oily Offi-curs. There seems to be a desire on the part of all for the election of the best men, irrespective of party.—Kenosha

and not to their politics. The rule is a wise one. Milwauinemeient, wastaful and costly. Men have been elected terly and notoriously unfit and untrustworthy. It is high time that the tax-payers, who foot the bills of the city covernment, should see to it that honest and capable men t mere parlisans, are put into office.

FIRST WARD DEMOCRATIC CAUCUS.-The " Denocrasy" of the First Ward held a meeting at the house of Peter Theles yesterday afternoon, and after a somewhat turbulent time, selected the following ticket for Ward Offi-

Alderman for 2 years-Captain Bast. Allormus for 1 year—Luke Marnell.

Assessor—Stephen Hoff.

Constable—J. Scheffel.

R. R. Commissioner-John Hardy. S. Justice of the Peace—W. H. Camon.
Delegates to City Convention—Wm. Shults, H. Runke
L. Barth, Edward Kavanaugh, M. Keough.

Sr. Paul's Parish.—The annual election for Wardens, Vestrymen and Delegates, in St Paul's Parish, was held yesterday, and resulted in the choice of the fol-Wardons.—Cyrus Hawley, J. W. Medberry

Fest-years.—J. B. Martin, Lester Sexton, David Fer-gueon, Harrison Ludington, Robert H. Strong. Delegates—Joseph Colt, C. Hawley, J. W. Medberry. St. John's Parism.—The election for Wardens

Sr. James' Parish .- At a meeting of the Con gregation of St James' Church, held yesterday, the following Wardens, Vestrymen and Delegates were chosen

for the ensuing year;

Wardens,—Dr. J. B. Selby, Gicero Comstock. Fastrymen.—Moss Knieland, Alexander Mitchell, L. A. Lapham, N. B. Clawell, J. H. Hoes, Delogutes.—Dr. Selby, Mr. Dec.

MILITARY ENCAMPMENT AT CHICAGO. - The Chicage papers announce that the Light Guard of that city are making arrangements for a Grand Military Encomponent there, about the let of July. They propose to invite all the military companies in Illinois, and one or more from each of the prominent cities of the Union. It will be a very handsome display.

FIRST WARD SCHOOL EXHIBITION.—An exhibutton is to be given at Young's Hall, this evening, by the of the principal, Mr. McWhonran. The exercises will con sist of Dialogues, Declamations, Songs, &c., relieved by appropriate Music, and there will, no doubt, be a large au-dience present to enjoy the entertainment.

Thind Ward Democratic Caucus. - The "Democracy" of the Third Ward are summoned to meet at the Louisiana House this afternoon, to nominate con-ditates for Ward Officers, and siect delegates to the City Coavantion. The other Wards hold their caucuses

JUDGMENT PRONOUNCED! Bashford Declared Governor!

FROM MADISON

MADISON, March 24. Supreme Court decided that deties of town, county, and State canvassors are limited by the statutes, and that there is no right to count supplements; they regret that the course of Respoadeut and Attorney General has prevented them laying before a jury the evidence of fraud shown, out their judgment does not depend upon them. Bashford having received a plurality of legal votes, ouster is pronounced against Barstow, and Bashford declared entitled to the privileges, rights and franchises, and costs are adjudged against Respondent. Bashford will probably take possession to-morrow morning.

TERRIBLE SHIPWRECK. the John Rutledge and ouc two bundred lives! New York, March 24. Capt. Wood, of the ship Germania, arrived at Capt. Wood, of the ship Germania, arrived at this port yesterday from Havre, and furnishes the following account of the sinking of the ship John Rutledge, by running into an iceberg, and the rescue of only 1 of the ship's company:

On the 25th uit, observed a ship's boat ahead and despatched a boat in quest of it; approaching the strange boat, it was found to contain the of the way for the weather the only the ship. Thos. W. Nee of New Hedfold, the only mile, Thos. W. Nye, of New Bedford, the only survivor of 13 persons—the remainder having perished of starvation and cold. Ney's hands and feet were frozen; the boat also contained the bedies of a Mrs. Atkinson and others, names unknown—all belonging to the sinp, John Rutledge, Captain Kelly, of New York. The ship J. R. left Liverpool for this port, Jan. 16th, and fell in with ice Feb. 13th, in lat. 40, 31' South, long, 46, 50' West; gotinto fields of ice next day.

Eive boats with the passengers and crow left the ship, and it was the intention of Mr. Atkinson, the mate, to have left the vessel in this boat but she broke adrift, and he and several others went down with the wreck. It was conjectured that the other boats which were well manned and (himished with a compass, and would pull for the gulf stream, as the weather was severely cold. They may possibly be picked up. The compass of the rescued boat was accidentally broken, and it being cloudy, her crew could not shape their course. After picking up the boat the Germania stood northward until dark, and The P.

Sine bore away to the port of the city and probably fell in with the boats of the John Rutledge.

The Liverpool with a crew of twenty six—as yet, only one is known to have been saved. She was instructed for \$70,000, and her cargo consisted of 50 tons of merchandize. Twenty-five persons were on board when the last boat broke loose, and just before the ship went down.

Ginericser: — I am under the impression that the Com-mittee on Class No. 5, in which the machine deposited by Sanda & Ounmings—a Birch-making machine was em-braced—recommended it as being the best machine offered, and therefore entitled to the highest award. As one of that Committee, I am of the opinion that it is the best ma-chine now in use in this country for making bricks of tempered clay. I have seen the machine in use, of full size, and the quantity and quality or the bricks it produ-ced are better than any others that have come to my knowl-edge. I am engaged in the brick business, and have searched much in all our principal cities for the most ap-proved machines, and must say, that this machine is the very best I have seen or heard of: I, therefore, recom-mend the machine as worthy of the highest exard that you can give to any machine at the Exhibition.

BAMUEL BYINGTON.

TROY, NEW YORK, September 15, 1888.

This certifies that I have been in the brick business, extensively, for seventeen years, and are employing twenty two hands, and have this day witnessed the operation, in my yard, of Musers Bands & Cumainings' Patent Machine. The Machine tempers the mid and makes brick at the same time. It is simple in it construction and not inable to get out of order, and can be worked with common borers, and makes good bricks, and is capable of modeling from 14,000 to 18,000 por day. I am well satisfied with the working of the machine. I have werked different kinds and take great pleasure in saying that this is the best I have ever seen, and in recommending the same to the public as being worthy their attention.

JOHN ARCHIBALD.

Cambridge, August 27, 1883.

This is to certify, that I have been engaged in making bricks about twenty years, and have seen and used different binds of improved brick mechines, and an now using them. I have this day witnessed the operation of Sands and Gummings' Patent Brick Machine, as Edmind disperience, and the same time positions imply in its consumption of and, at the same time possesses every requisite for durability; to the extent, that mon labering men can easily do all this work with the machine that is required of practical hele-makers. The machine that is required of practical hele-makers. The machine that is required of monding 14,000 to 15,600 good bricks per day; and that it is bost machine now is operation, and I take much pleasure in recommending it to all interested.

CAMBRIDGE, August 27, 1858.
This is to certify that I have been in the brick business for thirteen years, and have seen the operation of Mesers.
Sands & Commings Pastent Brick Machine, in Mr. Edmund Hayes' yard, and, in my opinion, it is the best in use, and that it will make from 14,000 to 18,000 of good bricks per day, with horse power.

S. M. COFRAN, Futnam street,

H. Samps—Dear Sir:—This is to certify, that the Mechanies Brick Manufacturing Company have had in use in their yards during the past season some of your Patent Brick Machines, and the undersigned regard them the best machines for manufacturing brick that they have any knowledge of.
